(Srpsko Udruženje za Patologiju)

and

Serbian Scientific Society

Welcome Message

Belgrade, January, 7th, 2019

Dear Colleagues,

It is a great pleasure for me to welcome you for the eleventh pathology Course in Belgrade, a new „EScoP Belgrade 2019“.

As usual model of EScoP Courses, this year it's featuring „Liver Pathology“.

I think, this will make much better promotion and influence of pathology in Serbia, and in neighboring countries too.

Like always before, we are sure that the idea of organizing educational Courses in Belgrade, as a Branch of ESP Courses, is of great importance, mainly for our residents and young pathologists. I hope that our clinicians will see that as importance too.

The participation of distinguished tutors, their experience and knowledge, and our permanent commitment to improve the level of pathology in Serbia, but also in surrounding countries, has allowed us to realize these Courses.

Finally, I wish you a fruitful Course, and an enjoyable stay in Belgrade,

*Prof. dr Jovan Lole Vasiljević, FESC, FRCPath
Director of EScoP Belgrade Courses*

Liver Pathology
